

Brief:

Making a Fruit Bowl Program for Amy, ...

Initial project backlog

Project Backlog

Updated 29 minutes ago

6Project backlog

Be able to add more pieces of fruit to types of fruit that are already in the menu

Added by paul-khouri

Be able to eat fruit that is in the fruit bowl

user can select a particular fruit from the list and reduce the number of that fruit

Added by paul-khouri

Be able to add a new type of fruit into the fruit bowl

Added by paul-khouri

Be able list the different types of fruit in the fruit bowl

Added by paul-khouri

Create a phone app for the program

Added by paul-khouri

Have a hologram of the fruit bowl that she could interact with anywhere

Added by paul-khouri

1To do

Create a menu to choose to show the list or to quit the program

There will only be two options

Show the fruit in the fruit bowl with how many pieces

Quit the program

The program will have a main loop

Added by paul-khouri

Updated 36 minutes ago

2To do

Create a function to print out the fruits and their quantities

make a test of it and then implement in the main program

Added by paul-khouri

Implement the quit option and run a full test of the program

Added by paul-khouri

1In progress

Make basic menu in main program:

R : Review

Q: Quit

Added by paul-khouri

2Done

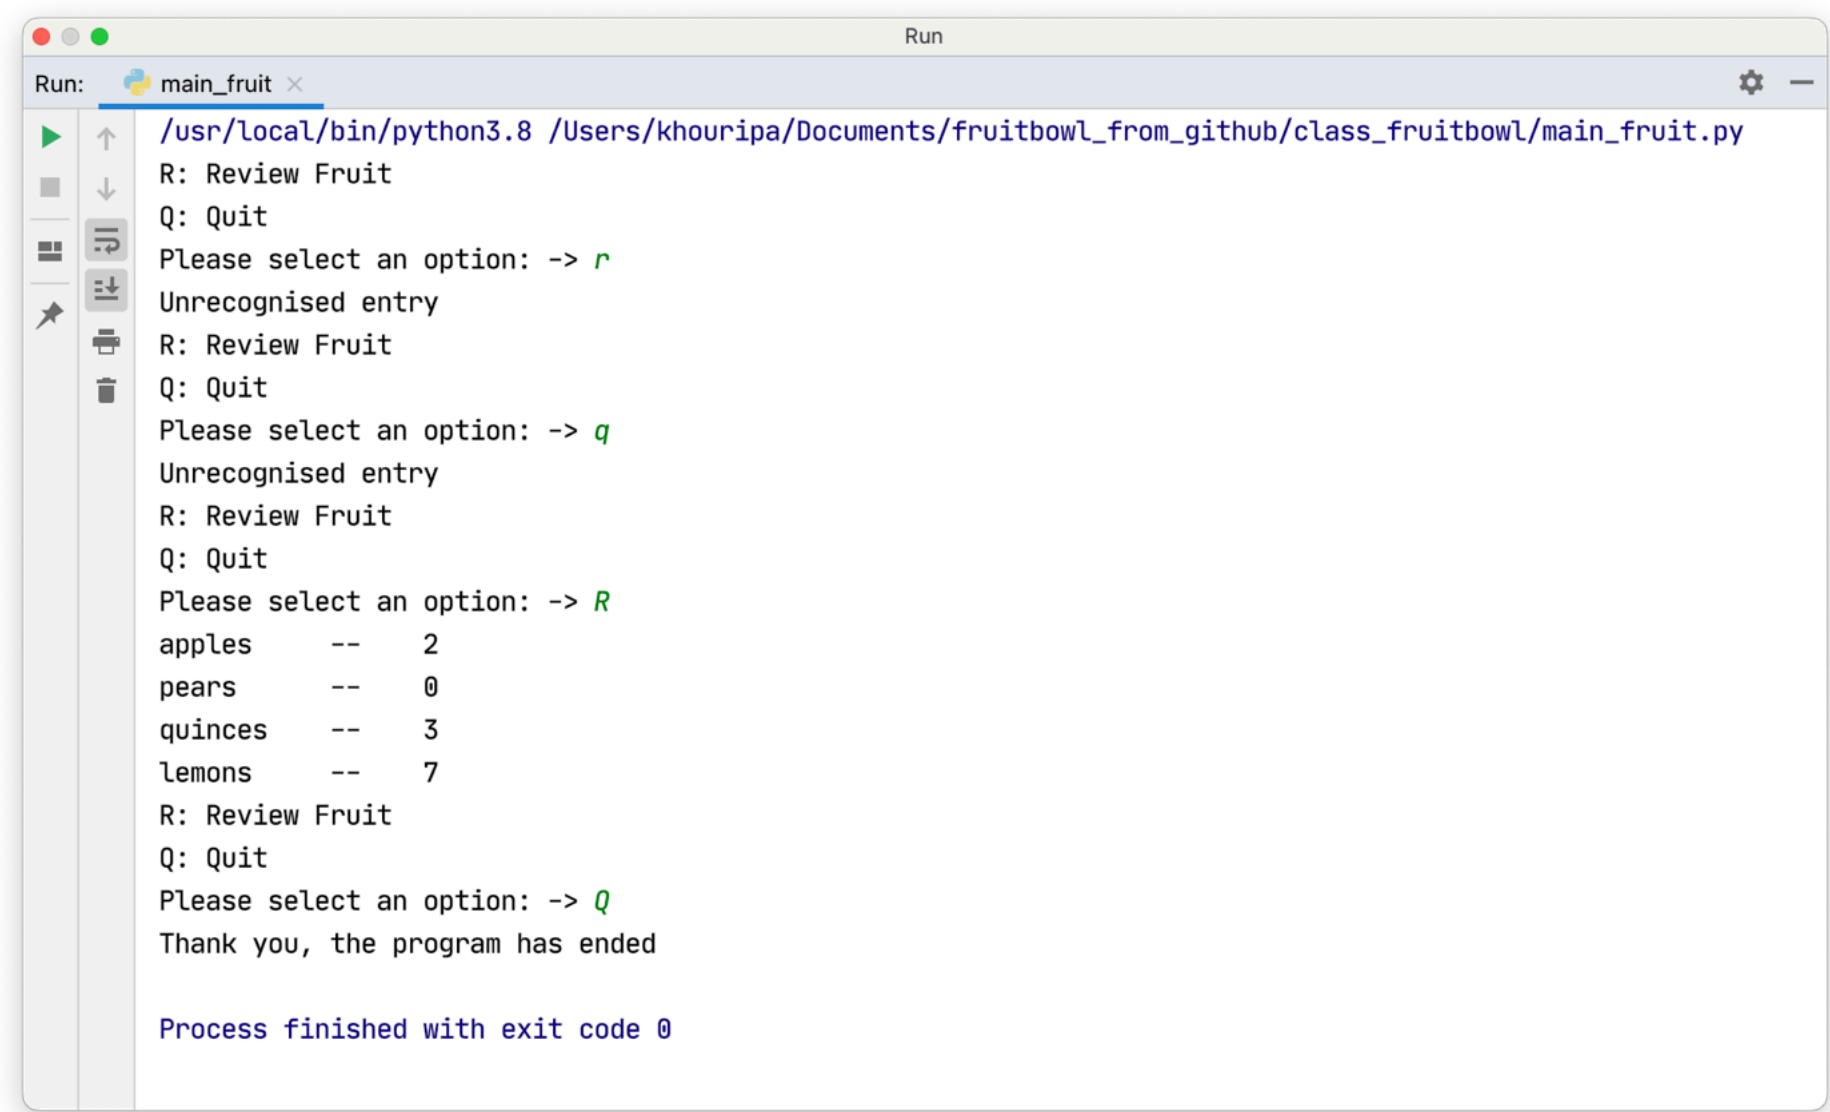

Set up Repository in Git Hub

Added by paul-khouri

Main program file (create)

Added by paul-khouri

Basic Test of Program

Sprint Review
