Brainstorm for Amy's program.

① ← most essential

Be able to see what fruit is in the bowl (name and quantity)

Be able to reduce items of fruit (after they have been eaten)

③ **Be able to quit the program.**

② **Have a menu system to access different options**

Be able to add items of fruit (after shopping)

Be able to add a new type of fruit + quantity

Be able to do this using a phone app

Have a hologram of the fruit bowl that she could interact with anywhere.

Bigger picture "dreams" for the project.
