Little project :   create a set of test functions
that add, subtract, multiply, divide
numbers.
(and print the result), as 2+3=5

do not create menu

Extend your program with a menu system.

Sample run.

```
please enter a number    5
please enter a number   -3

    1:  Add
    2:  Subtract
    3:  Multiply
    4:  Divide
    0:  Quit
please choose your option   2
    5 - -3 = 8

End.
```

Extend it further
so the program
runs in a loop
and new numbers
can be entered.
